Via Electronic Filing

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street SW
Washington, D.C. 20554

***RE: Notice of Ex Parte in WC Docket No. 10-191 and CG Docket Nos. 03-123
and 10-51***

Dear Ms. Dortch:

On October 5, 2016, David Bahar, Director of Public Policy and Government Affairs for Communication Service for the Deaf, Inc. ("CSD"), met via teleconference with Eliot Greenwald, DRO Deputy Chief and Special Assistant to Bureau Chief for Telecommunications Relay Services ("TRS"), Sanford Williams, Attorney/Advisor in the Competition Policy Division of the WCB, and Robert McConnell, DRO Telecommunications Accessibility Analyst.

During the teleconference, CSD expressed its belief that ten-digit dialing of video endpoints, today made possible through the Telecommunications Relay Service Numbering Directory ("TRS Directory"), and available only to registered users of IP-enabled telecommunications relay services with limited exceptions, should in the long term be available to all individuals with video endpoints, whether or not they are registered users of IP-enabled telecommunications relay services.

In the short term, CSD emphasized the importance of granting providers of direct sign language customer support services ("Direct Services") access to the TRS Directory, to enable any user of IP-enabled TRS to use their TRS Directory-provisioned videophone to call and connect to such providers of Direct Services.

Respectfully submitted,
COMMUNICATION SERVICE FOR THE DEAF, INC.

/s/

David J. Bahar
Director of Public Policy and Government Affairs
